

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

FOREWORD

TO THE ALUMNI OF THE UNIVERSITY OF ILLINOIS, GREETING!

Friends: With this first official record of the Alumni of the departments of the University of Illinois at Urbana, I wish to send a word of cordial greeting and congratulation. You will receive from an examination of this volume a new idea, I am sure, of the growing importance of your Alma Mater. You must recognize that you are children of no mean mother. Her family is increasing in size with marvelous rapidity.

The total registration for the past year in all departments, including the Academy, was 4,074—truly a goodly array as far as numbers go. I believe the quality is good also, and with all due respect to those of you who have been out of college twenty years or more, I think it is steadily improving. Your children, whom you are now beginning to send to Illinois in increasing numbers, are a considerable improvement upon their parents!—for which I am certain you are thankful as well as the rest of us.

Friends, this is a great heritage into which you have come—membership in the University of Illinois. You ought to become prouder of it every day. This institution is destined, I believe, not only to be the greatest of American State Universities, but to be generally recognized as such the world over, and when that time comes, it will have become one of the greatest foundations for higher education known in history.

Illinois will be linked with Oxford and Cambridge and Berlin and Paris and Harvard and Yale as one of the holy places in the history of the human spirit. The men and women who have laid these broad foundations on which we are rearing this superstructure have done a noble work. They deserve our loving respect. We can pay to their memory no better tribute than to dedicate ourselves anew to the great undertaking they began.

Will you not each and all help us in realizing the magnificent ideal of a university which fired the imagination and stirred the heart of that prince of men, Dr. J. M. Gregory, and which was taken up and converted into reality at such a marvelous rate by his successors, Dr. Peabody and Dr. Draper, and the great host of their assistants in the Faculty and among the people of Illinois.

The University of Illinois is already great in size—not even a hostile critic could deny that. Let us make it as great in quality and so indisputably so that all men will realize and acknowledge it.

In this forward movement, the Alumni of the University can be of great help. It is necessary to plant in the public mind a higher conception of what a university is and may be; to develop in the public heart a more earnest desire to realize this conception here in Illinois; and to stir the public will to a clearer determination to have this ideal become real within our day and generation.

If each and every Alumnus will join actively in the work of public education on this subject, you will be able to see still greater things in your day than any which have come to pass.

With cordial esteem,

EDMUND J. JAMES.

NOTE

An asterisk (*) before the name of a person indicates that the person is deceased; before a degree indicates that the holder received a certificate at the time of graduation and was voted the degree at the time indicated. Unless the degree is followed by the name of some other college or university, it was received at Illinois.

Those who find errors in their own or in other biographies in this book will confer a favor on the Editor by reporting them to him. A new edition will doubtless be demanded before long; consequently not only corrections but also additional material should be sent in as occasions arise to warrant it. The alumni should feel at liberty to write at any time to the Editor of the Alumni Record for information concerning any graduate. He will have the information if the alumni keep him informed.

ANNALS OF THE UNIVERSITY

1862

An act donating public lands, on the ratio of 30,000 acres for each Senator and Representative, to the states and territories which would provide colleges for the benefit of Agriculture and the Mechanic Arts was passed by Congress, and approved on July 2, 1862. Under this grant Illinois would receive property to the value of \$600,000.00 (480,000 acres) the interest on which was to be applied for these purposes. The grant must be accepted and applied to its uses before July, 1867, or it would revert to the government.

1863

The Legislature of Illinois accepted the grant Feb. 14, 1863, and discussed the matter for some time without being able to come to any agreement on the details of the proposed college or on its location. Some wished to divide the money up among the existing colleges, provided they establish schools of this nature: some to establish a school to teach Agriculture and the Mechanic Arts; and some to attach a new school to the Normal University.

1864

At the State Fair held in Decatur in 1864, a committee was appointed by the State Agricultural Society to take the matter up and present some definite plan to the Legislature. This Committee was composed of Wm. H. Van Epps, Prof. J. B. Turner, A. B. McConnell, B. G. Roots, and John P. Reynolds. They drew up a bill as an expression of the views of the farmers, and presented it to the Legislature in 1865, and again in 1867.

1866

State meeting of all those interested in the organization of the proposed Industrial University held at Bloomington. Meeting recommended that the state build only one university.

Sept. 21—Notice was published of an informal election to be held in Champaign county on Oct. 10, by order of the board of Supervisors. The voters were to decide whether or not the county should appropriate \$100,000.00 worth of Champaign county bonds "to secure the location of the Illinois Industrial University in this county."

Oct. 5—Proposition of Champaign and Urbana was to purchase the building then standing, called "The Urbana and Champaign Institute Building," with the eight acres on which it stood at a cost of \$30,000.00, then use the other \$70,000.00 to buy more land and secure the location of the University over the other contestants—Bloomington, Jacksonville, and other towns had made offers. The Champaign papers said that they could thus give this building, 1,000 acres for a farm, 100 acres for a "garden-patch" and still have \$40,000.00 left.

The building was erected in 1861, supposedly at a cost of \$175,000.00, and was said to be "one of the largest and most substantial buildings in the State, second only to the Normal University." It stood at the north end of what is now Illinois Field, facing University Avenue. The Main part of structure was 125 feet front, forty feet in depth, and five stories high. From the center projected a wing forty-four by seventy feet, four stories high. It contained ninety dormitories, each ten by fifteen, "suitable rooms for principals, professors, etc." and "accommodations for 800 students."

Oct. 12—Returns of the election on the question of the bond issue show the vote to have been: For, 1,601; against, 1,035—majority for 566.

"Urbana and Champaign were unanimously in favor of the measure. A considerable opposition was manifested in some of the country towns, however." This opposition was due to the fact that the smaller towns regarded the whole thing as a scheme on the part of Urbana and Champaign to make the entire county pay for a school which would benefit these two communities only.

1867

Jan. 10—Mr. Tincher (Senator from the Seventh District) introduced into the Senate a bill for "an act to provide for the organization, endowment, and maintenance of the Illinois Industrial University." This bill provided, among other things, that the Institution should be located at Champaign. At the same date Senator Fuller (Twenty-third district) introduced a bill similar to Mr. Tincher's except that it provided for the location of the University by a commission to be appointed by the Governor. These two bills were read twice and ordered printed. Jan. 11—Both bills in the House were introduced, the Champaign bill being offered by Mr. Griggs from that district. The Senate at this time voted that the entire grant should be applied to one institution. Jan. 25—The Governor approved a bill giving any county, city, township, or incorporated town authority to levy taxes or voluntary subscriptions for the purpose of securing the location of the University.

Feb. 1—Mr. Tincher moved to amend the Fuller Bill by striking out the section providing for a committee to locate the college. This amendment was carried by a vote of fifteen to nine. Feb. 22—House Bill amended by adding to the offer contained (the Institute property) therein (as requirements for the location) 810 acres of land, \$50,000.00 worth of freight (appropriated by the Illinois Central), \$100,000.00 in Champaign County Bonds, and \$2,000.00 in fruit, shade and ornamental trees and shrubbery from Dunlap's nursery, making a total of \$450,000.00 estimated valuation of property. This bill as amended passed the House on the same day. Its provisions were that the institution should be located in Urbana. The trustees were to be appointed by the Governor, with approval of the Senate, five from each grand judicial division, and one from each congressional district. They were to serve for six years, without salary, the first appointment to draw lots, one-third to serve two, one-third four, and one-third six years. The trustees were to elect a Regent to serve two years, a Treasurer, and a Recording Secretary, and were to provide buildings, teachers, etc. Students were to be at least fifteen years old. Each county was entitled to a scholarship for descendants of soldiers and seamen. No degrees were to be conferred on graduates. The Regent, with the Governor, the Superintendent of Public Instruction and the President of the State Agricultural Society were to be *ex-officio* members of the Board. The instructors were "to teach in the most thorough manner such branches of learning as are related to Agriculture and the Mechanic Arts and Military Tactics, without excluding other scientific and classical studies." The college year was to extend through six autumn and winter months so the students could go home for the six spring and summer months or stay at the University and pursue optional studies "provided that no student shall at any time be allowed to remain in or about the University in idleness, or without full mental or industrial occupation." This Act passed the House by a vote of sixty-six to ten, the Senate by eighteen to seven, and was approved Feb. 28, 1867. The immediate result was a huge celebration in Champaign.

Mar. 8—Passage of Supplemental Bill, providing that on the failure of the county authorities to comply with the requirements of the Act by June 1, the trustees were to locate the University at some other town. Trustees were appointed by Governor Oglesby as follows:

- 1st Congressional District, David S. Hammond, Cook Co.
- 2nd Congressional District, Luther W. Lawrence, Boone Co.
- 3rd Congressional District, Horatio C. Burchard, Stephenson Co.
- 4th Congressional District, John S. Johnson, Hancock Co.
- 5th Congressional District, Samuel Edwards, Bureau Co.
- 6th Congressional District, O. B. Galusha, Grundy Co.
- 7th Congressional District, M. L. Dunlap, Champaign Co.
- 8th Congressional District, Samuel Allen, Tazewell Co.
- 9th Congressional District, Alexander Blackburn, McDonough Co.
- 10th Congressional District, M. C. Goltra, Morgan Co.
- 11th Congressional District, J. P. Hungate, Clay Co.

12th Congressional District, Willard C. Flagg, Madison Co.

13th Congressional District, A. M. Brown, Pulaski Co.

First Grand Judicial Division—L. R. McMurry, Effingham Co.; Charles Topping, Union Co.; Thos. Quick, Washington Co.; and Isaac S. Mahan, Marion Co. Second Grand Judicial Division—George Harding, Edgar Co.; Henry Pickerel, Macon Co.; Mason Brayman, Sangamon Co. Third Grand Judicial Division—John M. Van Osdel, Cook Co.; J. C. Burrough, Cook Co.; S. S. Hayt, Cook Co.; Emery Cobb, Kankakee Co.; and Robert Douglass, Lake Co. First meeting to be held in Springfield, Mar. 12, 1867.

Mar. 12—First meeting of the Board of Trustees held in Springfield. Nominations for the position of Regent being called for, the names of Hon. Daniel J. Pickney, of Ogle County, Dr. N. N. Wood, of Morgan County, Hon. J. L. Pickard, of Cook County, and Dr. John Milton Gregory, of Kalamazoo, Mich., were proposed. Dr. Gregory was elected, at a salary of \$3,000.00 a year. A committee of five, with the Regent as chairman, was selected to prepare a course of study and report to the Board. John W. Bunn, of Springfield, was elected Treasurer, and a finance committee to serve for one year was appointed. Willard C. Flagg, of Madison County, was elected Corresponding Secretary; O. B. Galusha, of Grundy County, Recording Secretary. The Board passed a resolution favoring the establishment of a Mechanical Department to be located at Chicago. Mar. 29—An election was held in Urbana and Champaign to decide whether the two cities should appropriate \$45,000.00 for the University, Champaign to give \$25,000.00, Urbana, \$20,000.00. The vote was as follows: Champaign:—For, 676; against, 4. Urbana:—For, 406; against, 0. Mar. 29—Dr. Gregory visited Champaign and Urbana for the first time.

Apr. 10—Vote authorizing Supervisors to issue the bonds for \$100,000.00 resulted as follows: For, 2,731; against, 867.

May 7—The second meeting of the Board of Trustees was held in the chapel of the "Urbana and Champaign Institute," twenty-two of the thirty-two trustees being present. Dr. Gregory accepted the appointment, his salary having been increased to \$4,000.00 a year. A committee on Buildings and Grounds was appointed, the land grants accepted, and the University permanently located at Urbana. Scrip was ordered sold. A seal was adopted. It was decided to open the institution on the first Monday of March, 1868. A resolution to admit both sexes was referred to the Executive Committee to be appointed by the Regent.

A committee on Courses of Instruction reported the following curriculum:

- I Agricultural Department
 - (1) Agriculture
 - (2) Horticulture
 - (3) Landscape Gardening
- II Polytechnical Department
 - (1) Mechanical Science and Art
 - (2) Civil Engineering
 - (3) Mining and Metallurgy
 - (4) Architecture and Fine Arts
- III Military Department
 - (1) Engineering
 - (2) Tactics
- IV Chemistry and Natural Science
- V Trade and Commerce
- VI General Science and Literature
 - (1) Mathematics
 - (2) Natural History, Chemistry, etc.
 - (3) English Language and Literature
 - (4) Modern Languages and Literature
 - (5) Ancient Languages and Literature
 - (6) History and Social Science
 - (7) Philosophy (Intellectual and Moral)

July 31—Dr. Gregory issued a circular, proposing that each County Agricultural society offer a prize of one hundred dollars to aid the best scholar from the public schools of the county who should attend the Industrial University.

Nov. 26—Board of Trustees purchased six and one-half city lots adjacent to the University for the price of \$1,850.00. The lots purchased lay along the west of what is now Illinois Field. The committee recommended the purchase of twenty-four others, between Romine and Mathews Avenues, east of Illinois Field, which could be secured for \$9,150.00. This recommendation was referred to the Finance Committee. The Board decided that all students should register in the Military Department. The school year was divided into three terms, running from September to June. Three men were elected, Head Farmer, Jonathan Periam, Professor William Baker, of Springfield, Ill., and Professor G. W. Atherton, of New York. March 11 was decided upon as the date for the formal opening of the University.

1868-69

Mar. 10—Willard F. Bliss elected Professor of Agriculture. Mar. 11—Inaugural Ceremonies and Formal Opening of the University. Hon. S. W. Moulton presided at the exercises. The music was under the direction of Geo. F. Root, of Chicago, the dedication hymn being written by Dr. Gregory. Letters from Governor Oglesby, Senator Yates, and General Logan were read. The principal address was delivered by the Honorable Newton Bateman, State Superintendent of Public Instruction. General Hurlburt introduced Dr. Gregory. The exercises were followed by a banquet in the dining Hall of the University. Mar.—Philomathean and Adelpic Literary societies organized. Tuition at the University was placed at \$5.00 per term, \$15.00 per year.

June—Close of the University for the year; seventy-seven students were enrolled during the first term. During the few days of closing exercises Professor J. A. Sewall, of Normal, delivered an address before the Literary Societies.

Aug. 5—The following appointments were announced: Prof. A. P. S. Steward of Harvard, to the chair of Chemistry, Captain S. W. Shattuck, of Norwich University to be Assistant Professor of Mathematics and Instructor in Military Tactics, and T. J. Burrill, of the Urbana Graded School, as Assistant professor Natural History. The latter had been engaged by the Regent in April. Aug. 12, the first catalogue of the University was issued, announcing the second year of instruction to begin on the fourteenth of September; the University opened with a total enrollment of eighty students.

Nov.—The Committee on Faculty of the Board of Trustees reported the employment of Professors Stewart, Shattuck and Burrill, also of Captain E. Snyder as Accountant and teacher of Bookkeeping and German. The Board took up for consideration a resolution of the City Council of Chicago, promising a donation of two hundred and fifty thousand dollars for the establishment in Chicago of a Polytechnical School. The members of the Board residing in the Third Grand Division and the First Congressional District were authorized to accept the offer on behalf of the Board. The following resolution was passed: "Resolved that we recognize it as a duty of the Board of Trustees to make this University pre-eminently a practical school of Agriculture and the Mechanic Arts, not excluding other scientific and classical studies." A resolution calling for the admission of women to the University was referred to the next meeting for action.

Dec. 19—Announcement of the "First Annual Course of Agricultural Lectures and Discussions." The course was to start on the twelfth of January and to continue for eight days. Publication of the "Recommended Courses of Study," for the use of entering students.

Mar., 1869—The annual report of the regent included a statement that the students had worked on the farm two hours a day in the Spring, and one

hour a day during the Fall. The labor system was continued. Dr. Gregory was re-elected Regent, Bunn Treasurer, Flagg Corresponding Secretary, and Bliss Recording Secretary. The Board adopted a resolution directed to the Governor recommending that the number of members of the Board should be cut down; that there should henceforth be one member from each Congressional district. It was resolved to admit female students "as soon as means are at our command to furnish proper buildings for the purpose."

July—Prof. Wm. M. Baker was elected as Regent pro tem. during the absence of the Regent in Europe. One thousand dollars was appropriated for a green house. Professor S. W. Robinson was employed as Professor of Mechanical Engineering.

1869-70

Feb., 1870.—Department of Mechanical Engineering was created.

Mar.—The Board voted to admit women "as soon as buildings are provided."

Aug. 25—It was finally decided, by a vote of five to four, to admit women to the University.

A. P. Bliss, Professor of Agriculture and Recording Secretary resigned, and Professor Snyder was elected Recording Secretary.

1870-71

Sept. 3, 1870—Adoption of Student Government. The legislative body consisted of a General Assembly elected by vote of the students; the judicial department was a Council of five, chosen from the General Assembly; and the Executive department consisted of a President and Vice-President of the Government, an Adjutant for each building, and Hall Sergeants.

Feb. 24, 1871—First building appropriation for the University introduced into the Legislature. It provided for one hundred thousand dollars a year for two years for a main building and twelve thousand five hundred dollars a year for two years for a mechanical engineering building, besides twenty-five thousand a year for running expenses, apparatus, etc. This bill as passed by the Legislature, March 13, 1871, provided \$75,000 for a building to cost not more than \$150,000; \$75,000 more was to be appropriated at an adjourned session. That was not done and the building was completed at the expense of University funds.

Feb. 28—Scientific Association organized.

Mar.—The Regent reported twenty-two women in attendance. Dr. Gregory was re-elected. A location for the new main hall was adopted. Van Osdel of Chicago was to be the architect. Library numbered 5,000 vols. Donations for the year included 200 gooseberry cuttings.

June 4-7—Closing exercises. Address by President Erastus O'Haven, D. D.

Aug.—The executive committee of the Board of Trustees voted to allow the Regent to use one recitation room for a preparatory department. Contracts for the two new buildings were let, and the location of the Mechanical Engineering Hall (old woodshop) was adopted. Don Carlos Taft was appointed Professor of Geology and Zoölogy. He had begun teaching in April. Aug. 24—A convention of "friends of Agriculture and Polytechnic Education," held in Chicago, appointed a committee of one from each state in which was located a college founded on the National Land Grant, to petition Congress to establish Agricultural Experiment Stations at these colleges. Dr. Gregory was President of the Convention and appointed Secretary Flagg as Committeeman from Illinois. A circular to Illinois Congressmen was accordingly issued in November.

1871-72

Sept. 13, 1871—Drill Hall and Mechanical Shops opened. On the same day the cornerstone of University Hall was laid. Hon. Newton Bateman delivered the principal address, October 4, 1871. Organization of the Athenai Literary Society by women of the University.

Oct.—The great Chicago fire occurred during this month. One hundred and fifty-seven students were sent from the Military to assist in keeping order in the city during and after the fire.

Nov.—The first publication by the students of the University appeared. It was called *The Student*, and was published monthly.

Mar. 1872—The Trustees requested the Legislature to appropriate money to finish University Hall. Boarding Hall for women established under the auspices of the University. D. C. Taft appointed Professor of Zoölogy.

April—The Legislature adjourned without appropriating money to finish University Hall, so the Executive committee of the Board of Trustees voted to sell Champaign County Bonds, held by the Board, to secure the necessary funds.

June 6—First presentation of "Certificates" to graduates. Those receiving them were: John J. Davis, of Freeport; Willis A. Reiss, of Belleville; Alonzo L. Whitcomb, of Urbana; Stephen A. Reynolds, of Belvidere; James N. Mathews, of Mason; Charles W. Rolfe, of Montgomery.

Addresses were delivered by Dr. Matthews, and Dr. Edwards, President of Normal University. The University Band furnished music for the first time.

1872-73

Feb., 1873—Organization of the Young Men's and Young Women's Christian Associations at the University.

Feb. 25—Organization of the Agricultural Society.

Mar.—Dr. Gregory re-elected Regent, relieved from teaching and given a leave of absence until fall, to enable him to take an European trip. Professor Shattuck appointed Regent *pro tem*. N. C. Ricker appointed Instructor in Architecture.

May—Adoption of a law providing that the Board of Trustees should henceforth consist of nine members, three from each grand judicial division of the State, appointed by the Governor.

June 2-5—Commencement. Address delivered by Hon. Andrew D. White, President of Cornell University. June 4—Passage by the Legislature of an appropriation to finish University Hall. June 5—Alumni Association of the University organized.

July—Meeting of the newly organized Board. Passage by the Board of a Resolution declaring that Agriculture and the Mechanic Arts were the primary studies of the institution, all others being secondary.

1873-74

Sept.—Name of the University publication changed from *The Student* to *The Illini*. Departments of the University now recognized were: (1) Agriculture; (2) Polytechnic; (3) Military; (4) Chemistry and Natural Science; (5) Trade and Commerce; (6) General Science and Literature.

Dec. 10—Dedication of University Hall. Dec. 19—Dedication of Adelphic Hall in University Hall. Address by Dr. Gregory. March 7, 1874—Dedication of Philomathean Hall. Address by Dr. Gregory. March 11—Celebration of Anniversary day. Address by Professor T. J. Burrill. Failure of Legislature to pass any bill of appropriations for the University called for the discussion by the Board of methods of retrenchment.

June 9—N. C. Ricker appointed Assistant Professor of Architecture. June 10—Commencement.

1874-75

Sept. 21—First issue of the *University Reporter*, a publication of four small pages. Its purpose was ostensibly to arouse interest in the Student Government, and to advocate the establishment of a university press. Its real object was to elect a certain ticket in the student campaign. There were three tickets in the field: "Reform," "Law and Order," and "Reporter." Probably largely as a result of the issue of three numbers of this

paper almost every one of the thirty candidates on the "Reporter" ticket was elected.

Nov. 26—First annual banquet of the Telegraphic Association, composed of students bent upon mastering the new art of telegraphy.

Dec. 4—Union meeting of Philomathean, Adelphic, Scientific, and Alethenai Societies.

Mar. 4, 1875—Banquet of Senior Military Class. Professor Manley Miles, of Michigan, elected Professor of Agriculture and Instructor in Agricultural Chemistry, at a salary of \$5,000.00 a year.

June—N. C. Ricker advanced to full professorship. June 7-8-9—Commencement. First annual meeting of Alumni.

1875-76

Oct. 28, 1875—Second annual Oratorical Contest between the colleges of Illinois held at Jacksonville. The contestants were representatives of Knox, Northwestern, Illinois Wesleyan, Chicago University, Shurtleff, Monmouth, Illinois College, and Illinois Industrial University. First Prize was won by J. C. Lewis, of the Industrial University, second prize by J. Otis Humphrey, of Shurtleff.

Mar. 1876—Board of Trustees decided to establish a Preparatory department. March 11—Anniversary Day. Address by Dr. Gregory.

June—Dr. Gregory presented his resignation of the regency. June 6—Discovery that a chapter of a fraternity had secretly existed for some time in the University led to a recommendation by the Regent and the adoption by the Board of this resolution: "Resolved, that the Board con-
Jan. 1, 1871—George A. Morrow assumed the position of Professor of Agriculture.

demn the formation and perpetuation of secret societies in the University as detrimental to the scheme of self-government attempted by the students; and that we trust a due regard to the best interests of the institution will induce our students to disband and discountenance such organizations." The Young Men's Christian Association was granted the use of a room in University Hall. All University instructors were given notice of prospective cut of ten per cent. in salaries, caused by the Board's lack of funds.

1876-77

Sept.—Dr. Gregory decides to withdraw his resignation and remain.

Mar. 1877—School of Art and Design established. Dr. Gregory re-elected Regent. Professor Ricker's plans for a Chemistry Building accepted. A reduction of ten per cent. of all salaries decreed by the Board of Trustees.

1877-78

Sept.—Preparatory students required to drill. Chemical laboratory located. All bids for the building rejected. Major Dinwiddie, the first army commandant, took charge of the military department.

Oct. 18—Inter-collegiate contest at Monmouth, won by Knox, Northwestern second, Ill. Ind. Univ., third.

Feb. 13, 1878—Organization of "Temperance Union" by University students.

Mar.—*Illini* advocated inter-collegiate base ball contests. Seniors decide to leave clock for west tower of Main Hall as class memorial. Rules passed by the Board governing the granting of degrees. Mar.—Voted to give diplomas to graduates, charging a fee of \$5 therefor. President Gregory appointed by the Governor commissioner to Paris Exposition, and granted leave of absence to attend. Three hundred Springfield rifles received for cadets.

May 31—Entertainment by Musical Classes and Singers of the University. Petition to the Legislature asking it to empower the Trustees of the University to grant degrees, signed by members of the classes of 1872-77, inclusive. Petition granted. Annual contest of Illinois Industrial Univer-

sity Association. Summer School of Mechanic Arts held in Chicago from June 24 to August 15.

1878-79

Sept.—Office of "commander of battalion" abolished and "military professor" given charge of "military classes and drill organizations."

Dec.—*Illini* advocated adoption of University colors.

Sept., 1878—S. H. Peabody appointed Professor of Mechanical Engineering.

Jan. 16, 1879—Organization of the State Natural History Society at Normal. Professor T. J. Burrill Vice-President, Professor S. A. Forbes, of Normal University, Secretary.
